

How a Student Will Get Help From a Teacher Through Adobe Connect

Students enrolled in the Online school will be given an email account from North Star. The teacher will email a hyperlink to the student using this account. The student will click on the hyperlink provided in the body of the email to join the Adobe Connect meeting.

Students will enter their full name, as a guest, and click “Enter Room”

The Moderator will see the student has requested entry into the meeting and either "Accept" or "Decline."

The screenshot shows a Connect Pro Meeting window titled "Student A01 | Connect Pro Meeting". The interface includes a menu bar with "Meeting", "Present", "Layouts", "Pods", and "Help". On the left, there is an "Attendee List (2)" showing "My Status: Raise Hand" and two participants: "Kurt Huzar" and "Steve Durand". Below the list is a "Chat" window with a message from Kurt Huzar: "Ms. E, I have a question about Jellyfish. How are they different from Star Fish?". A "Note 5" window is also visible, containing contact information for Ms. Enright. The main area displays a presentation slide titled "Characteristics of Cnidarians" with a list of features: "Radial symmetry", "Two cell layers", "Specialized structures", "Nerve net", "Variety of organisms", and "Sexual and asexual reproduction". To the right of the text is a drawing of a jellyfish. At the bottom of the meeting window, there is a toolbar with icons for "Share", "Request Control", "Full Screen", and other controls. A callout box with an arrow points to the "Raise Hand" status in the attendee list, and another callout box with an arrow points to the "Raise Hand" icon in the bottom toolbar.

Once "Accepted," the student will be directed to this screen where they can ask the teacher questions on the chat window or "raise their hand" and wait to ask a question.
